

Fire *WORKS* Wagon

A Multiagency Community Resource Delivering the Fire Message

The Bitter Root Resource, Conservation & Development Area, Inc. (RC&D) and the USDA Forest Service-State & Private Forestry have developed a mobile, user-friendly information and education trailer that contains the following three elements of the **National Fire Plan**:

- **Preparedness**
- **hazardous fuels mitigation**
- **fire prevention education**

Public unveiling of the Fire SMART Wagon, May 6, 2003

The 16-ft. trailer is a state-of-the-art, technological classroom. Available to the public through this venue is a collection of innovative, cutting-edge interpretive materials, promoting messages related to fire ecology, responsibly living in a fire-dependent ecosystem, defensible space, and hazardous fuels reduction.
